IT Competencies	:	IT Operations, Database Administrator, Technical Support, Technical Writer, Project Management

WORK EXPERIENCE

PT Equnix Layanan Unggul – Jakarta, Indonesia **August 2025 – October 2026**
Support Engineer (Contract)

- Monitored server activities and PostgreSQL database performance using Grafana, performed system health validation, and prepared hourly database reports.
- Performed initial analysis and troubleshooting for server and database issues, including log analysis, terminating locking queries, checking replication lag, and identifying slow queries before escalation or further action.
- Performed Linux and PostgreSQL administration tasks, including database user creation and management, granting appropriate privileges on production servers, and handling daily database operations.
- Performed routine PostgreSQL operations and monitoring using pg_activity, including replication status checks, backup verification, vacuum monitoring, configuration reviews, and database access control checks through pg_hba.conf.
- Served as the first point of contact in a 24/7 technical support environment and collaborated with technical teams on incident resolution, anomaly investigations, server maintenance, migrations, and system optimization.
- Prepared and maintained monthly technical documentation, including client requests, slow query reports, database performance reports, and other operational records to improve efficiency and help prevent recurring incidents.

English Academy by Ruangguru – Jakarta, Indonesia **June 2025 – August 2025**
Field Education Consultant (Apprenticeship)

- Provided educational program consultations to prospective students, current students, and parents by recommending learning programs aligned with their goals and needs.
- Managed the entire sales pipeline, from initial outreach and follow-up to the enrollment process.
- Exceeded sales targets by 75% within one month.
- Built and maintained professional relationships with students and parents to encourage

program renewals and long-term engagement.
- Conducted school visits and promotional activities to expand market reach and generate new customer leads.

Informatics Laboratory UAI – Jakarta, Indonesia **November 2024 – January 2025**
Assistant Laboratory Director (Internship)

- Assisted lecturers in preparing Semester Learning Plans (RPS) for Computer Graphics courses.
- Organized and digitized teaching materials into Google Docs as learning references for students.
- Developed textbook templates to support academic and laboratory documentation.
- Coordinated with publishing companies to facilitate the publication process of laboratory textbooks.

PT Uswah Salam Al Azhar– Jakarta, Indonesia **October 2023 – January 2024**
Learning Management System Administrator (Internship)

- Designed the interface for the Al Azhar Elementary School e-learning platform using Moodle.
- Performed data migration and plugin installation to enhance system functionality.
- Migrated mid-term examination questions into the e-learning platform.

PT Perusahaan Perdagangan Indonesia– Jakarta, Indonesia **September 2023 – December 2023**
IT Support (Internship)

- Resolved daily technical issues involving computers, printers, and network devices.
- Configured internet connections, printers, and user accounts.
- Assisted with IT asset management, data backup processes, and system updates.

ORGANIZATIONAL EXPERIENCE

Student Executive Board Faculty of Science Technology **January 2023 – December 2023**
Vice President

- Assisted the President in planning, coordinating, and supervising all organizational programs.
- Assumed leadership responsibilities in the President's absence.
- Coordinated cross-department activities to ensure programs were completed on schedule.
- Actively participated in student advocacy initiatives and strategic decision-making.

Informatics Student Association **January 2022 – December 2022**
Coordinator Department of Human Resource Development

- Designed and coordinated programs to develop students' talents and interests.
- Served as the Project Leader for SONIC, involving four student cohorts, and the annual faculty parade.
- Coordinated logistics for the faculty orientation program at Mount Salak.
- Evaluated programs and provided recommendations for future improvements.

Informatics Student Association **January 2021 – December 2021**
Staff Internal Communication Division

- Coordinated internal meetings, discussions, and performance evaluations.
- Prepared meeting minutes, event invitations, and internal announcements.
- Served as a moderator for internal division programs.

ADDITIONAL EXPERIENCE

PT Citramas Buana Mandiri– Jakarta, Indonesia **September 2024 – November 2024**
Warehouse Controller (Freelance)
